About This Game

A breath-taking space exploration experience in Virtual Reality

Compatible with HTC Vive, Oculus CV1 and DK2.

Discovering Space 2 is all about exploration. There's no action, shooting or explosions, just sightseeing, discovery and relaxation on an epic scale.

Calming, wondrous and adventurous.

- Take control of your ship, or follow a tour, and immerse yourself in a journey through the Solar System.
- Feel the awesomeness and remoteness of deep space.
- Experience the mood and atmosphere of worlds far away from home.
- Explore at your own pace, and learn about what you see.
- Come back with a new sense of amazement of what is out there.

Built from the ground up for VR, you have a small space ship and the entire Solar System to explore.

The end result is an experience that conveys the scale, awe and feeling of planetary exploration, in a fully immersive way. You really feel like you are there, and it is at times breath-taking. You can travel vast distances, view the planets (and their moons) from afar, execute some close fly-bys and plunge through their atmosphere down to the surface. Along the way you can listen to on-board commentary that adjusts its content depending on whether you take your time, or just dive straight in.

Key Features

- Vast expanse of the Solar System to explore.
- Easy to use tour mode.
- Easy to use flight controls and navigation.
- Seamless and continuous travel from deep space down to the planetary surfaces.
- Planets modelled to true scale.
- Planets rendered using custom shaders that go beyond simple texture mapping.
- Procedurally generated terrain and procedural and multi-layered textures to enhance the planet surfaces.
- Planetary atmospheres enclthe the planets, providing striking sunrise and sunset vistas and re-entry effects.
- Simple navigation system allows you to easily fly to your desired target destination.
- Jump gates / hyperspace to allow quick jump to distant systems.
- Near speed of light effects – Red shift, view contraction and “headlight”
- Capture your view with in-game snapshots at the touch of a button.

Fly your ship with either an xbox / gamepad style controller, or "use the force" with HTC Vive wands.

Note: Oculus touch controller not yet fully supported

Title: Discovering Space 2
Genre: Casual, Indie, Simulation
Developer:
Discovering VR
Publisher:
Discovering VR
Release Date: 10 Mar, 2017

b4d347fde0

Minimum:

OS: Windows 7

Processor: i5-3570

Memory: 8 GB RAM

Graphics: Nvidia GTX 660 Ti* - Nvidia GTX 970

DirectX: Version 11

Storage: 6 GB available space

Additional Notes: *minimum performance for DK2. Xbox / gamepad controller recommended.

i'd rec everyone to buy Season pass . each dlc from Steep is just amazingly fun 10/10. Great route add on. Fantastic to drive.. 8/10 - Great arcade-style wave shooter with a novel method of killing the enemies. Excellent graphics, very smooth performance and an absolute steal at \$5.00! Can't wait for the next chapter.. For the current price tag this was an okay kinetic visual novel. It's very short so don't expect some sort of plot twist or character development; there's the adult patch on the discussion board which probably makes the game feel a bit longer too (considering the adult scenes).

If you're in the mood to read something simple and quick, you could give this VN a try. Don't expect much tho.

4/10.. A complete waste
Even at \$5.00.

The game is merciless, the first level - the easiest difficulty.
I have died so often that I am dying more than I'm playing.
I understand some challenge, a game that teases you.
This game takes that to unrealistic levels.

It's based on "perfection", one wrong move, accidently standing on a random spawn, and you've lost - you get no checkpoint, you have to restart the whole level.

I haven't even survived 1:00 minute.

I don't even want to play it anymore, the game had amazing potential, but with the difficulty level, its not possible to enjoy..
This game is great, if you have some free time.

What a vehicle pack, the Roadmaster 2000, it's a cool bus, Jubilee GL, another cool bus, Galaxie HK, cool train, Musketer 01, what a train, the trains do have good capacity. Wizardry is exactly what the title says: Wizardry meets roguelike game. I was impressed how well this blend works. Gameplay is very solid and balanced, underlying mechanics of Wizardry is a good background for roguelike game. As the additional bonus, the game is kept in the convention of the tabletop game, with mini figures representing your party and cards representing spells. The graphics are really good, I think that if that game would be considered as a pure roguelike, I'd say it has the best graphics from all other installments so far. Music and sound effects are also very good.

There is only one aspect of the game which can be a bit irritating: the mobile game roots of the game somehow got through to the surface. There are revive options, paid elite members and other reminiscent of In-App-Purchases which shouldn't be in paid version. My guess is that if those elements were fully eradicated, even with the certain death of the characters, the game would only improve.. A lot of people complained about this game being too much like Myst, that's what made me decide to get it and I'm glad I listened!... The ambient sounds, music, puzzles, and overall atmosphere of the game feels very much like the old Myst series. It really is very much the same and like a continuation of Myst. So, if Myst doesn't sell you on this game then you should pass it up. But at the \$4.99 sale price that I paid for it - IT'S A STEAL! ;). This game makes me wish I was dead. If anything, this is the best dlc you could buy for a game! Hilarious and well orchestrated... It's just so damn good!.

Достижения получить уж слишком легко, если не лениться, то можно вполне за 40 минут управиться.

. Painfully short, however as a bare bones beta all the building blocks are in place to make this a fun challenging little platforming game and although the mechanics are few they are highly polished to the point where I'd be happy with just the release of more levels. Control scheme needs a bit of reworking however I like the concept and the music is catchy all in all I'm looking forward to the completed product.
